Lattrel Canada Inc. is a family owned business established in 1992.

For more than 20 years, we specialized in the manufacture of quality residential lighting supplying retailers across Canada and the US.

In 2014 our focus shifted towards producing custom lighting.

In keeping with our trademarked slogan "Tomorrow's Antiques Today®", every piece we produce is finely crafted with quality material and a finishes that are made to stand the test of time. We endeavor to meet and even surpass our clients' expectations with great product design and execution. Each fixture is conceptualized in a way to make the installation process as simple as possible, as well as, assuring that delivery times are respected.

Even though we source parts and materials from overseas, all projects are assembled and finished in our warehouse, ensuring quality control.

We are CSA certified for Canada and the US, however, all custom projects are further certified by special inspections that come in to fully inspect each piece prior to delivery. The certification reports are available to our customers upon request.

Give us the opportunity to work on your next project and we will transform your simple ideas into a work of art.

Lattrel Canada Inc. is fully insured.

Sincerely,

President
Victor Ortins,
Lattrel Canada Inc.

"Tomorrow's Antiques Today"®

Crystal

We use a variety of Crystal on our fixtures as to customer's preference and budget.

We use Egyptian Asfour 30% lead crystal drops, arms and Boboches, in clear crystal as well in colours.

For a more economical fixture,
We also use K-9 China #1 crystal, in various standard shapes and sizes.

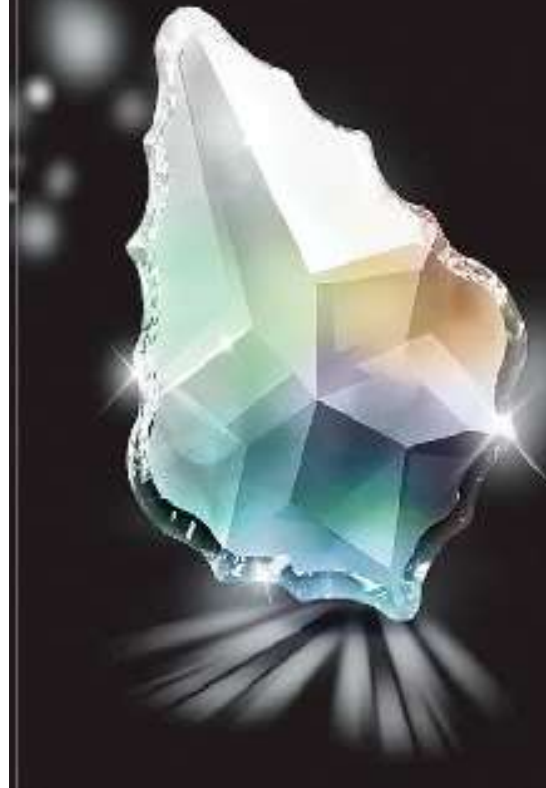

As well we are able, with our suppliers, to manufacture special shapes and sizes as per customer requests and specifications.

Sample Below:
Stainless steel satin frame covered on
3 sides with special cut crystal made to order.

Project: New Jersey Reception Hall
